15 November 2013

The Director Parks & Wildlife Management
Ministry of Environment & Tourism
P/Bag 13306
WINDHOEK.

CC Chief Control Warden: Erongo Region
P/Bag 5010
SWAKOPMUND

For the attention of Mr Colgar Sikopo, and Mr Claudius Maketo

North River Resources (Pty) Ltd incorporating Namib Lead & Zinc Mining (Pty) Ltd:

Environmental Impact Assessment for an application for a mining licence: EPL 2902

We refer to our letter and Information Document dated 02 May 2013 regarding the above project.

The Environmental Impact Assessment Draft Report has been completed and we are pleased to supply you with a copy of the EIA, herewith. The Report is supplied as one hard copy (containing the report only) and one CD. The CD contains both the Report and the Appendices which include the specialist reports. You will find the CD in an envelope attached inside the back cover.

We are providing this Draft EIA to you for two reasons:

- The Directorate of Parks is the key Interested & Affected Party, so we need to be sure that your issues and concerns have been addressed in the EIA; and

- We would value your input to the Environmental Management Plan which we will be writing over the next two weeks. Therefore if you are not in agreement with any recommendations made in the EIA report, or would like to suggest better alternatives, we would appreciate your input.

Parks can either provide their comments in writing before 29 November 2013, or we could hold a meeting before that date, in Windhoek to discuss any matters that you may wish to raise.

Member Colin Christian
We would also like to invite you, and staff from the Dorob Park (Swakomund office), to the final public meeting in Swakopmund on 21 November 2013 (see details in the Advertisement attached). There we will present the findings of the EIA study. If necessary we could have a discussion with your Dorob Park managers after the public meeting to discuss details of the EMP. They would need to have read the EIA Draft report beforehand and come with suggestions for the EMP.

Please advise how you would like to proceed on the above. I am under pressure from my Client to finalise the EIA and EMP for submission to MET early in December. We look forward to working with you as soon as possible.

Yours sincerely,

[Signature]

Environmental Scientist.

Namib Lead & Zinc Mine
Environmental Impact Assessment
Second Public Meeting

North River Resources (Pty) Ltd proposes to apply for a Mining Licence to reopen the old lead and zinc mine in the Dorob National Park. The site is west of Rössing Mountain, about 23km from Swakopmund or 34km from Arandis, and 8km north of the B2 tar road.

The project involves underground mining, chemical processing, and disposal of the tailings on site. The products will be exported via the Port of Walvis Bay.

Colin Christian & Associates CC will present the results of the Environmental Impact Assessment at a public meeting in Swakopmund on:

21 November 2013 at 10:00 (till approximately 13:00)
Municipal Conference Centre,
Cnr Swakop & Hendrik Witbooi Streets.

To register as an interested or affected party, please contact Maureen (Cell: 0813462020 or Email: maureen.fidler@gmail.com), or Colin (Tel: 061-302296, Fax: 061-302297).
